R. WADE ALLEN BIOGRAPHY
SystemsTechnology Inc.
13766 Hawthorne Blvd., Hawthorne, CA 90250, USA
rwallen@systemstech.com

Mr. Allen received the B.S. and M.S. degrees in engineering from the University of California at Los Angeles in 1962 and 1965, respectively. He has been actively involved in human factors and man/machine systems research since 1960. Since 1967 he has been with Systems Technology, Inc., Hawthorne, California, where he is presently President and a Technical Director, conducting research in vehicle dynamics, human/machine interaction and human factors involved in traffic safety, car driving, and aircraft piloting problems. Mr. Allen is a Fellow of the Institute for the Advancement of Engineering and the Human Factors & Ergonomics Society.
